

Weekly Report

Matthew Royle

Week 36: 03 September 2009

Summary of activities since last meeting

Last meeting: 27 August 2009

Next meeting: 03 September 2009

Goals and Work targets

Goals for this week

- Start project writeup
- Finish implementing Float4 class
- Accept white space when parsing kernel arguments
- Get kernels to execute in parallel

Goals Achieved

- Started my project write-up, includes the thesis structure
- Kernel parser accepts white space when parsing kernel arguments
- Kernels now execute in parallel

Proposed goals for next two weeks

- Go through specification and get functions to include all necessary functionality
- Try and implement float4, int2, int4 classes better
- Continue writeup
- Possibly start looking at recording results

Rate your work performance

- A lot of work was achieved
- Got a good structure to start my writeup with
- Started going through the specification to get ideas for the writeup

Issues

- Float4 class not working correctly, need to read some of the specification to try solve the problem
