

Weekly Report

607H3314

Week (dd - 7 weeks), 2 August 2010

Summary of activities since last meeting

- Lots of development work
- Read up on user testing and started developing my tests

Goals and Work targets

Goals for this week

Development work

Goals Achieved

Partially, there is still some work that needs to get done (see below)

Proposed goals for next week (13th-19th)

- Here follows a detailed list of what needs to get done (development wise) with numbers that I'm trying to use to indicate the time required to do it (from 1-10, 1 being relatively quick, 10 will be taking long)
 - Toggle all function [2]
 - Function bar (this is new, not the one on the left. Will hold toggle all, edit dashboard, logout. will sit in middle bottem of screen, centered below the graph containers [3]
 - Add sparklines to the right bar [5]
 - Add additional links to the left bar [1]
 - Time checks to python script to make use of time state table that has been added to the sqlite db [2]
 - Login and permissions [5]
 - Fix zoom function [3]
 - Finish description function (port from old dashboard version) [1]

– geographic graphs [8]

- Get between 6000 - 10 000 words done on design section (currently have around 600 :/)
- NO more than 8 points above are allowed to go into next week (as in I dont get everything done)

Proposed goals for NEXT NEXT week and a half (20th - 1st)

- Finish first beta draft of write up.
- Finish Design and implementation sections along with adding more to the introduction and conclusion and adding a section to the litriture review on graph theory

Proposed goals for weeks after that (4th - 10th) October

- Add all the graphs I need for the final dashboard
- Polish writing, fix all refrencing

Proposed goals for weeks after that (11th - 17th) October

- Conduct user testing and writup on user testing

Proposed goals for weeks after that (18th - 24th) October

- Finish writeup and polish

Proposed goals for weeks after that (25th - 31st) October

- hand in on the 25th

Rate your work performance

How did you feel you worked ?

I worked hard, but got distracted allot

Did you achieve all your goals ? if not why not?

yes, some, I had some other work that had to get done aswell

What were the issues you had trouble with?

My pythonsyntax is lacking a bit and ended up causing me allot of frustration

What assistance did you need to continue?

patience

How can you improve your performance?

Stop working on other things, less time at the monument (they just have to make due for now)

Provide a rating out of 10 in addition to the above.

7

Tasks/Learning

Learned alot about metasploit while doing my asterisk project and my linux skills leveled up

Research
