

Weekly Report

Samuel Hunter

Week 6, 12 April 2010

Summary of activities since last meeting

Activities

- Completed the abstract to my project paper.
- Worked more on the minidashboard.
- Listed some more metrics

Last meeting:

Next meeting:

Goals and Work targets

Goals for this week

- Have 3 usable graphs ready in php (a line graph, one using sparklines library and one from data visualization book).
- Document (list) all proposed metrics for the dashboard application.
- Finish project proposal.
- Find and read a paper regarding my work (I've mostly been reading books)

Goals Achieved

- Project proposal is done (still need to upload it onto my site)
- project abstract (proper one) is complete, however it was not part of my initial goals
- Listed more metrics;

Proposed goals for next week

- Finish miniDash prototype

Rate your work performance

How did you feel you worked ?

Very bad, I didnt use my time correctly and over estimated the time available to myself during the vac.

Did you achieve all your goals ? if not why not?

Nope, the vac was alot more busy than I had expected.

What were the issues you had trouble with?

Finding enough time to work on my project.

What assistance did you need to continue?

—

How can you improve your performance?

Beter time management.

Provide a rating out of 10 in addition to the above.

5

Tasks/Learning

What is the most useful/interesting thing you learned or did this week?

I learned that taking time to write a good abstract can really help to focus a project, it helps to show the project borders, what the goals are and how things should be done

Research

No direct research this week.
