

Weekly Report

Student: Christopher Schwagele

Week Number 26 on 22 August 2010

Summary of activities since last meeting

- dVP ~80% complete
- dVP section in writeup (design side)

Last meeting: 16 August 2010

Next meeting: 23 August 2010

Goals and Work targets

Goals for this week

- dotNetVis protocol

Goals Achieved

- dVP implementation underway
- Multithreaded approach implemented
- Design section of dVP in main writeup done
- TCP connection working between client and server

Proposed goals for next week

- dotNetVis protocol finalisation
- dotNetVis client (display capture files by timestamp values with variable replay rate)

Rate your work performance

- How did you feel you worked ? Average
- Did you achieve all your goals ? No
- What were the issues you had trouble with? Intersivity, other practical assignments
- How can you improve your performance? -
- Provide a rating out of 10 in addition to the above. 7

Tasks/Learning

- What is the most useful/interesting thing you learned or did this past week? Threaded TCP client and server
- Even bad weeks usually yield something positive

Research

- What is the most useful/interesting paper you read this week? -
- List what you have been doing research wise - papers read/written/resources found
- Research should be ongoing.
