

Lecture Comprehension System 2

David Kenyon

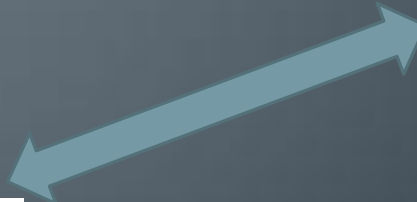

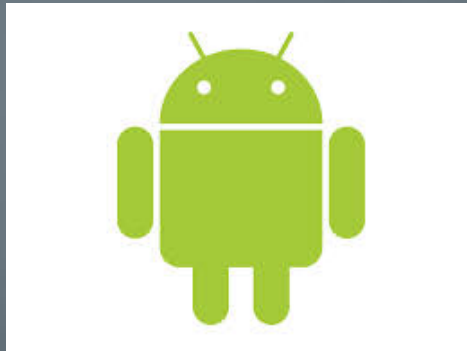

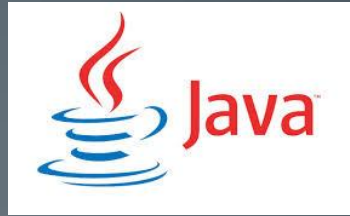

Background

- Problem:
 - Lack of student engagement
 - Feedback questionnaires at the end
- Solution:
 - Lecture comprehension system
 - Live
 - Lecture specific
 - Mobile phone based

Implementation

<?xml?>

Example:

- Luke wants to say something
- He thinks about it and composes his question without just putting his hand up and getting confused with what he wants to say.

Example: client side

[Feedback that isn't time sensitive](#)

Submitted by administrator on Sat, 08/03/2013 - 15:12

Send in feedback here that is not time sensitive so that the lecturer can read it after class.

[+ Read more](#) [+ Add new comment](#)

[Interest in the topic](#)

Submitted by administrator on Sat, 08/03/2013 - 15:08

Let the lecturer know whether you are interested in the current topic. Be sure to mention what the topic is.

Problems encountered

- Rhodes Network is closed
- Hosted the web page in the cloud
- Difficult to troubleshoot
- Too much conflicting information about creating an android app
- Communication between the two

Future plans:

- Questionnaire on interaction in lectures
- Lecture a week with no system
- Lecture a week with the system
- Questionnaire on the system
- Collate results

Questions
